

CPCA Member Benefits

CPCA: ***Profitability Through Industry Insight***

CPCA Members are a group of like-minded companies whose common goals are to bring the best quality, certified products to the Canadian process market and to stay on top of leading-edge technologies.

Market Insight: Make better strategic decisions by being more aware of how your business is doing compared to the overall Canadian process market. This year we will be adding to our analysis making use of cutting edge software to compare process trends to various market drivers including GDP, the price of oil and interest rates.

Industrial Relations: Keep up with regulatory requirements and standards that impact our industry and your business. This year's projects include CRN harmonization and hosting an Industry 4.0. Conference.

Communications: Stay current with industry events and initiatives. Follow us on [linkedin](#).

Education & Careers: Fill the pipeline for the high quality hires that you're going to need in the future by supporting the CPCA's efforts to promote process careers to students in post-secondary institutions. Take part in our compensation & benefits report to ensure your compensation plans are competitive.

2018 AGM May 31-June 3

The CPCA locates our AGM at various breathtaking destinations across Canada. This year we will be in Muskoka, ON. Our AGM features a series of activities to sharpen your mind and unwind in the company of your peers, who are most often leaders in both their companies and fields.

This is a great opportunity for both distributors and manufacturers to form new business relationships.

The AGM is a mixture of professional networking, keynote addresses and social fine dining. Spouses are also welcome to

Make New Industry Connections: CPCA hosts meetings throughout the year where you can meet process leaders from across the country.

To learn more visit our [website](#), or contact [Trish Torrance](#) at 905-844-6822.

participate, and we have activities for them planned as well.

This is a must attend for senior leaders in the process community.
